PROFESSIONAL SUMMARY

Learning Experience Designer and Educational Technology Specialist with expertise in designing interactive digital learning environments, coding-based instruction, and learner-centered curriculum solutions. Skilled in applying instructional design principles, UX thinking, and web technologies to create engaging microlearning experiences and scalable digital training solutions. Background includes curriculum strategy, eLearning development, and technology-integrated instruction supporting diverse learners. Currently completing a Master of Education in Advanced Teaching with a focus on innovative digital learning design and learner engagement.

CORE SKILLS

Instructional Design & Strategy	UX & Learning Design	Technical Skills	Educational Technology
Instructional Design	UX for Learning	Html 5	Ed Tech Integration
Learning Experience Design	Accessibility	CSS3	Google Workspace
Microlearning Strategy	Interaction Design	Bootstrap	LMS Platforms
Curriculum Strategy	Usability Analysis	Active Presenter	Digital Learning Tools

LEARNING IMPACT HIGHLIGHTS

- Designed interactive coding-based learning experiences supporting applied digital literacy and real-world technology skills.
- Developed gamified drag-and-drop learning activities, improving learner engagement and concept retention.
- Applied UX principles to improve usability and accessibility in digital learning modules.
- Created scaffolded learning pathways supporting beginner-to-intermediate skill progression.

SELECTED INSTRUCTIONAL DESIGN PROJECTS

Match the Bootstrap Class to Its Purpose

An interactive drag-and-drop learning activity reinforcing Bootstrap framework concepts through applied practice and immediate feedback.

Skills: microlearning design, interaction design, HTML/CSS learning

Match the Bootstrap Class to its Purpose | <https://bootstrap-class-match.rhakagi.com/>

Understanding Website Layout — Pizza Palace Conceptual

Conceptual learning experience introducing website structure, including navigation, hero sections, and layout hierarchy.

Skills: visual scaffolding, conceptual learning design

PROFESSIONAL EXPERIENCE

Learning Experience Designer / CTE Business Technology Instructor

Chandler Park Academy — Harper Woods, MI | Dec 2022 – Present

- Design and develop technology-integrated learning experiences aligned with digital literacy and career readiness outcomes.
- Create interactive e-learning modules using instructional design methodologies and learner-centered frameworks.
- Develop a curriculum covering web design, HTML, CSS, digital literacy, and business technology.
- Apply UX and usability principles to enhance learner engagement and comprehension.
- Facilitate project-based learning experiences mirroring real-world digital workflows.
- Mentor learners through STEM and Women in Technology initiatives, supporting career pathways.
- Collaborate with stakeholders to implement technology-driven instructional strategies.
- Improved learner engagement through interactive module design.

Freelance Learning Experience Designer / Web Developer

Remote | May 2017 – Present

- Design responsive digital learning environments using HTML, CSS, JavaScript, Bootstrap, and WordPress.

- Translate visual designs into functional learning experiences focused on usability and engagement.
- Deliver instructional consultations and training for clients and small business owners.
- Develop branding and user experience strategies supporting digital learning goals.

Digital Learning Facilitator (Long-Term Substitute)

PCMI Staffing — Oak Park, MI | 2020 – 2022

- Designed hybrid learning resources, including interactive presentations and digital learning supports.
- Facilitated technology-enhanced learning environments using Google Classroom and virtual tools.
- Supported diverse learners through differentiated instructional strategies.

Licensed Realtor (Client Experience & Consulting)

BPO Pros Real Estate — Farmington Hills, MI | 2008 – Present

- Provide consultative client support through analytical problem-solving and structured educational communication.
- Develop simplified learning explanations guiding clients through complex decision-making processes.

EDUCATION

Master of Education (M.Ed.), Advanced Teaching — In Progress
University of the People

Bachelor of Science in Business Administration — 2025
University of the People

Front-End Web Development Certificate — 2021
Nucamp Coding Bootcamp

Associate of Liberal Arts — 2016
Oakland Community College

Real Estate Salesperson License — 2005

TOOLS & TECHNOLOGIES

ActivePresenter | HTML | CSS | Bootstrap | WordPress
Google Workspace | Microsoft Office | Figma | Affinity Designer
Photoshop | LMS Platforms | Google Classroom | ICEV Software
